## GOALS

---

As a student pursuing a Bachelor's degree in Information Systems and an enthusiast of software development and cybersecurity, I am seeking opportunities that allow me to apply and refine my skills in the design, development, and implementation of innovative and secure software, with a commitment to constant learning.

I am excited about the opportunity to collaborate with creative teams where I can contribute my problem-solving skills to achieve the set objectives. My goal is not only to grow as a professional but also to grow as an individual and contribute to the creation of technological solutions that address today's challenges.

## APTITUDES AND SKILLS

---

- Languages: English (advanced), Portuguese (basic), French (basic), Spanish (native).
